USACE-NAFSMA Partnership
Philosophy
Systems, Not Individual Projects

Services yielded by ecosystems, infrastructure, and the economic activities they support. The value of natural and constructed systems was viewed as being greater than the sum of their intertwined parts.

One example of the benefits of a systems approach:
Sustainable Systems

New Orleans during Hurricane Katrina, 2005…

… and today, with Hurricane & Storm Damage Risk Reduction System in place
Top Priority: Delivery on Commitments

The goals are still:

On Time

Within Budget

A Quality Product
Finish What We Start
Section 7001: Driving Water Resource Infrastructure Policy

Report to Congress on Future Water Resources Development

Section 7001 of WRRDA 2014 requires that the Secretary of the Army annually submit to the Congress a report that identifies, for potential congressional authorization, completed feasibility reports, proposed feasibility studies, and proposed modifications to authorized projects or studies that meet all the following criteria:

- Are related to the missions and authorities of the Corps of Engineers (USACE). USACE primary missions are navigation, flood risk management, and aquatic ecosystem restoration. Recreation, hydropower and/or water supply will be considered "related" when it is performed in conjunction with one or more of the primary mission(s).
- Require specific congressional authorization.
- Have not been congressionally authorized.
- Have not been included in the main table of a previous annual report.
- If authorized could be carried out by the Corps of Engineers.

The annual Report to Congress on Future Water Resources Development is to be based, in part, upon annual requests for proposals for authorization from non-Federal interests for proposed feasibility studies and proposed modifications to authorized projects or studies that require authorization for the Corps of Engineers to proceed.

Section 7001 requires that the Secretary certify that the proposals included in the annual report meet the criteria established by Congress, listed above. Any proposals that do not meet the criteria will be included in the Report's appendix. Inclusion in the Annual Report to Congress does not provide authorization or appropriation for a study or project.

Preparing and Submitting a Proposal

Submit proposals online at www.wrda7001proposals.us. Proposals must be received by 19 September 2016.
Civil Works FY 2016 Funding *

$ Millions
Total: $5.989 Billion

by Account

- Construction $1,862 M
- Operation & Maintenance $3,137 M
- Flood & Coastal Emergencies $28 M
- Miss. R. & Tribs. $345 M
- Investigations $121 M
- Regulatory Expenses $194 M
- FUSRAP $112 M

by Business Line

- Navigation $2,610 M
- Flood Damage Reduction $1,703 M
- Environmental $580 M
- Regulatory $200 M
- Recreational $284 M
- Hydropower $216 M
- Emergency Management $35 M
- Water Supply $67 M

* Does not include supplemental appropriations
** Includes Office of Asst. SecArmy (Civil Works)
Out-Year Funding

FY17: Under consideration in Congress

FY18: Under development within USACE
